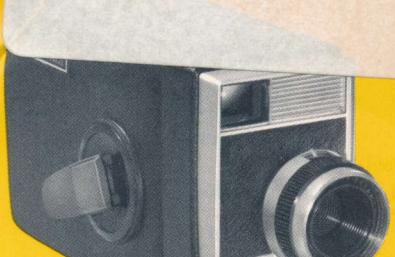
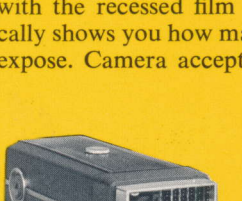
New ... budget-priced



KODAK 8 Movie Camera f/1.9

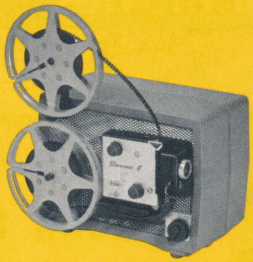
Just set the fast *f*/1.9 lens (the exposure guide tells you how) . . . aim . . . and shoot. It's that simple to take sharp color movies of your family fun. No need to focus. And you can capture up to 40 average-length scenes on a single roll of 8mm film. Loading is easy with the recessed film channel, and a dial automatically shows you how many feet of film you have left to expose. Camera accepts light bar for indoor movies.



Kodak Automatic 8 movie camera

Electric eye automatically sets lens for correct exposure. Warns when light is too dim. No need to focus. Built-in filter lets you use same roll of color film indoors and out. Complete kit includes camera, light bar, and lamps.

AUTOMATIC BROWNIE 8



Movie Projector

(Model A15)

You feed the film into the gate, and the projector automatically threads it through and onto the take-up reel.

Shows your 8mm movies up to four feet wide. Single knob controls forward projection, rapid rewind. 200-foot reel capacity for 15-minute showings. Compact and lightweight (6 pounds). Never needs oiling.
